? Getting Started

/rules | /guild | /kit guild

Hello and thanks for joining Mineseed! When you first join, please read our /rules! Then type the command /guild in the chat box.

After selecting one, type /kit guild for a starter kit with gear, tools, diamonds and more! You can also select /pronouns once you unlock a /guild so people know how to address you.

Players can also join our /discord to see announcements, giveaways, events, and more!

? Bedrock Adjustments

add _ before any bedrock names!

Mineseed is a java server with bedrock support.

- All bedrock players have a _ before their name.
- Bedrock players cannot click on links in chat.
- As a bedrock player, you can also go to our /discord #rules-and-info to click the links. It is way easier than typing the links in manually.

Bedrock players can do /geyser offhand to move things into their left hand. Note that you may not have left hand item functionality.

For quests, bedrock players will need to use a command to cancel quests: /quest cancel .
