?? Store

/store | store.mineseed.org

Mineseed is a free to play server, where almost everything in the store can be purchased in the game with player money (instead of real money). However, many of our players like purchase things from the store to donate to our maintenance and server running costs.

Visit the store at store.mineseed.org.

You can buy ranks, or rank upgrades, crate keys, cosmetics to spruce up your avatar, extra claim blocks to expand your base(s), and more! All store-bought ranks are permanent ranks that will stay with your account, even if there is ever a full server reset (but we do not plan on doing this!).

Premium Ranks

/warp rank

Premium Ranks provide in-game perks for IRL money. You can get temporary access to premium ranks with in-game money in the mineseed money shop, but the permanent ranks are great since you also unlock access to discord's mineseed chat where you can talk with people who are actively playing in mineseed even if you are not online.

Note that the Mineseed Store frequently has sales, and the rank costs are discounted on a regular basis!

You can also pay a fraction of the total cost of the rank if you want to upgrade from your current rank to the next rank. Just scroll to the bottom of the rank page.
