Buy Custom Heads

You can get custom heads to help spruce up builds, change your appearance, and more. The head database can be accessed at /hdb or /heads. It is available to anyone with the Druid premium rank and above. You can purchase the Druid rank permanently from our store or temporarily through the mineseed shop /msm on the server.

Once you complete the /heads command, it will open a gui with a categorized library of heads that you can choose from different alpha/number options to heads of active players and all manner of decorations for your builds to add more customization.

You can also search for specific heads by doing /hdb search whatever-you-want
