Can I get crate keys without spending real money?

As with many servers, Mineseed has a /store to buy exclusive items to help you in your game. However, we work hard to make available those items with in game money.

You can win crate keys in many different ways:

- enter the /discord raffle introduced with every new crate (3 crate keys given to 3 random winners who react to the post)
- win first or second place in /weeklychallenge (1st and 2nd place gets a random crate key)
- join the server and do /rewards for 28 days in a row (28th day provides a random crate key)
- save tokens from winning event games to buy keys from /token shop
- win build competitions (1st-3rd place includes at least 1 crate key in addition to money, tags, pins, claim blocks, and more)
- participate in /discord raffles and giveaways (usually we give up to 3 keys away whenever there is a new crate each month)
- buy them from /auctionhouse when other players sell them
